● Vaginal Douche Sodium Bicarbonate

Shelf Life:

3 Years

Form:

Liquid

Ingredients:

Aqua, Sodium BiCarbonate, Phenoxyethanol, Ethylhexylglycerin, Benzalkonium Chloride, Sodium Carbonate

Active Ingredients:

Sodium BiCarbonate, Sodium Carbonate

Product features:

Biomitis VaginaL Douche contains Sodium BiCarbonate %2 and Sodium Carbonate %0.025 as active ingredients, they ensure an alkali pH around 8-9. Since the Y chromosomes are more active in alkaline environment, it increases the odds of male birth. Vaginal Douche is adequate to use for women in menopause as well. It is also suitable to eliminate Candida vulvo vaginitis symptoms caused by Candida albican yeasts. It stops bacteria and fungi production and provides hygiene in vagina. Aleo vera is an effective ingredient to reduce itching and provide soothing.

Usage:

The mix of Vaginal Douche liquid is gently and slowly injected into vagina with help of cannula provided in the box. Daily use is advised for a minimum of 9 days not exceeding 15 days.

Target Group:

Women requiring vaginal cleansing.

Side Effects:

There is no known side effects. In case of any irritation or if an allergic reaction is observed, discontinue to use immediately and consult your doctor.

Storage:

To be stored inside it's box, in a dry and cool environment (ambient temperature between 5-30 °C).

Presentation:

100 ml bottle, cannula in a box with leaflet, 50 pcs in a carton.

● Vaginal Soap

Shelf Life:

5 Years

Form:

Solid

Ingredients:

Aqua, Sodium Palmate, Sodium Palm Kernelate, Glycerin, Sodium Chloride, Tetrasodium Etidronate, Tetsasodium EDTA, Parfum, CI 42051

Active Ingredients:

Sodium Palmate, Sodium Palm Kernelate

Product features:

Biomitis Vaginal Soap helps external genital area to be healthier, safer. It is effective against bacterias, yeasts and fungi. It removes bad odour generated by bacterias. It is safe to be used for all skin types, provides hygiene for women.

Usage:

It is foamed by hand or sponge. Applied to external genital area. Rinse with warm water. Recommended to use daily before each shower.

Target Group:

For women

Side Effects:

There is no known side effects. In case of any irritation or if an allergic reaction is observed, discontinue to use immediately and consult your doctor.

Storage:

To be stored inside it's box, in a dry and cool environment (ambient temperature between 5-30 °C).

Topical Antiseptic & Anaesthetic Spray

Shelf Life:	3 Years
Form:	Liquid
Ingredients:	Aqua, Lidocaine, Alcohol, Citric Acid, Methy Hydroxy Benzoate, BenzAlconium Chloride
Active Ingredients:	Lidocaine, Alcohol
Product features:	Lidocaine is a local anaesthetic of the amide type. Lidocaine has fast and high effectiveness. It is used in the following cases; Minor surgery like opening of superficial abscesses, extraction of deciduous and loose teeth and loose root fragments, curettage of the gums. It is used for endotracheal intubation and endoscopy. Although lidocaine is unable to penetrate intact epidermis, Biomitis Antiseptic spray 5 % is very effective in relieving discomfort where the skin is broken or when there has been actual removal of the epidermal layer. It can be used as anaesthesia by spraying on the place of muscular injection.
Usage:	Shake the product well and spray onto the area.
Target Group:	For cases requiring anaesthesia by the experts only.
Side Effects:	It is not recommended to use high doses of the product. Avoid swallowing since it can cause dyspnea (shortness of breath). Recommended to use by experts or doctors.
Storage:	To be stored inside it's box, in a dry and cool environment (ambient temperature between 5-30 °C).
Presentation:	40 ml bottle in a box with a leaflet, 48 pieces in a carton

● Ultrasound Gel

Properties:

With the assistance of the vacuum technology used in the production, with active substances in its content and with its high viscosity, it prolongs the probe's life. It is not affected by the body salt during the usage. It ensures an easy ultrasonography. It is hypo-allergenic, does not irritate skin, and does not contain oil and oily substances. It does not contain formaldehyde and salt; it has no toxic effects and odor.

Usage:

In any kind of ultrasonography and doppler application, it cuts off the air between the skin and the probe and allows ultrasonographic waves to reach the device monitor in a more clear and uninterrupted manner.

Storage:

Store in a cool, dry place between temperature of 5- 30°C. Keep away from direct sunlight.
